

ACEC-SK Inclusivity in STEM Conference Panelist Kerri Walker

Coming from a Saskatchewan family of scientists and engineers, Kerri forged a path in biology obtaining a molecular biology degree from the University of Alberta after graduating from Lumsden High School.

Kerri created and is responsible for growing and managing the environmental consulting team in Saskatchewan for McElhanney. She has over 13 years of progressive experience in the Environmental Consulting and Analytical Laboratory fields.

She is a big believer in developing future leaders in the industry and believes that anything can be accomplished with a positive attitude.

Kerri has two beautiful kiddos with another on the way and lives with her Husband in Deer Valley Saskatchewan.
